EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the Specification, lines 7-10: Changed

This patent application incorporates by reference the entire disclosure of U.S. Patent Application No. 09/859,320. This patent application also incorporates by reference the entire disclosure of a U.S. Patent Application entitled "Method of and System for Populating Knowledge Bases using Rules-Based Systems and Object-Oriented Software," filed on the same date as this patent application and bearing attorney docket no. 92717-00344USP1.

to

This patent application incorporates by reference the entire disclosure of U.S. Patent Application No. 09/859,320, which was filed on 5/16/2001, now U.S. Patent No. 7,236,940. This patent application also incorporates by reference the entire disclosure of U.S. Patent Application No. 10/690,258, which was filed on 10/21/2003, entitled "Method of and System for Populating Knowledge Bases using Rules-Based Systems and Object-Oriented Software."

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the informal drawings filed 10/21/2003 contain crowded freehand drawings and barely legible handwritten labels which make the scanned images unsuitable for publication. Figure 3 also contains print that is too small to be read without difficulty. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Claims 1-21 are considered allowable since when reading the claims in light of the specification, as per MPEP §2111.01 or In re Sneed, 710 F.2d 1544, 1548, 218 USPQ 385, 388 (Fed. Cir. 1983), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims including an "edit" representing a directive to correct or reject a medical claim (supported at e.g., pg. 9 line 4 – pg. 10 line 16; pg. 15 lines 9-13), filtering a translated edit representing at least a portion of the edit in a syntactical form for filtering to determine a syntactical match with a syntax of the knowledge-base-population rule causing population of the knowledge base (supported at e.g., pg. 32 lines 9-15; pg. 35 lines 7-33; pg. 36 line 12 – pg. 37 line 6; pg. 38 lines 6-12; pg. 39 lines 11-20), as specified in claims 1, 8, and 15.

The Examiner was persuaded by the arguments filed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
